
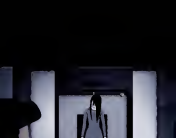
In my apartment there was a lady with mental issues

That women was very particular
Regardless of what I was, if it wasn't done the way she wanted, she would get very angry

Because of this, many apartment residents disliked her

However, one day



That woman was found hanging in the lift

Having no friends or family,
She did not have to think about missing anyone when she committed suicide in the lift

The soundless woman's message is a mystery
Though through the security footage the time of death was able to be identified

Midnight's Elevator

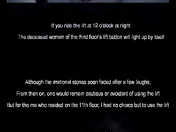
12点的电梯

Script: 沙子
Artist: Ju Jing
Original Translation: Snake-Cat
Director: Adventure-Dasko

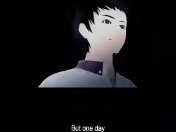
After that, there were some strange rumours going around the apartment

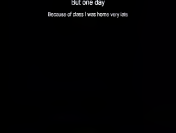
If you ride the lift at 12 o'clock at night
The deceased women of the third floor's lift button will light up by itself

Although the emotional stones seem trivial after a few laughs,
From then on, one would remain cautious or avoidant of using the lift
But for the one who resided on the 11th floor, I had no choice but to use the lift



But one day
Because of chess I was home very late





I heated it as a prank guided by some annoying
people at the lift malfunctioning

When cancelling the third floor lift button again,

I blacked out

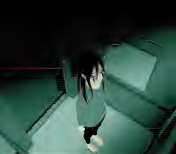
The next morning

The security guard found me lying unconscious in the lift

Although the security guard checked the security camera, no footage of he woman was found

A few days later, in the security tape of the day where the women died, a message was found

The women said this



THOSE WHO GET OFF BEFORE 18 WILL ALL DIE

In case anyone wants to ride the lift at midnight

Do not go to press the illuminated button, moreover do not try to cancel it

The ghost of the lift will become angry

END

短篇恐怖漫画《12点的电梯》我的邻居是个精神病患者

Short horror comic <12 o'clock elevator> my neighbor is a psychiatric patient
